

Return Policy

1. Overview

We want you to be happy with your purchase. If you are not completely satisfied, you may return eligible items according to the terms of this Return Policy. We accept returns within 30 days of purchase. Items must be unused and in original packaging.

This policy applies to all orders shipped within the United States. Please read it carefully before starting a return.

2. Return Window

The return window is 30 days, counted from the date of purchase. Requests made after 30 days will not be accepted, except for items that fall under the 1-year manufacturer warranty on electronics (see Section 8).

To avoid issues, we recommend starting your return as early as possible within the 30-day window.

3. Eligibility Requirements

To be eligible for a return, an item must meet all of the following conditions: it must be unused; it must be in its original packaging; it must include all original accessories, manuals, and parts; and the return must be requested within 30 days of purchase.

Items that show signs of use, damage caused by the customer, or missing parts or packaging may be refused or may receive a partial refund at our discretion.

4. How to Start a Return

Step 1: Contact support with your order number. Please describe the item you wish to return and the reason for the return.

Step 2: Our support team will confirm that your order is eligible and will provide instructions for sending the item back.

Step 3: Pack the item securely in its original packaging, include all accessories, and ship it using the instructions provided.

Step 4: Once we receive and inspect the returned item, we will process your refund.

Returns sent without contacting support first may be delayed or refused.

5. Return Shipping Costs

Shipping costs for returns are covered by the customer unless the item was defective or incorrect. If you received a defective item or the wrong item, we will cover the return shipping cost. Please contact support with your order number so we can arrange this.

Original shipping charges, including express shipping fees, are not refunded for returns that are not due to a defective or incorrect item.

We recommend using a trackable shipping method, because we cannot be responsible for returns that are lost in transit.

6. Refunds

Refunds are processed within 5-7 business days after we receive the returned item. The refund is issued to the original payment method used for the purchase, whether that was a credit card, PayPal, or Apple Pay.

After the refund is processed, your bank or payment provider may need additional time to show the credit on your account. This extra time depends on the provider and is outside our control.

If you have not received your refund after 5-7 business days from the date we received your item, please first check your account and then contact support with your order number.

7. Defective or Incorrect Items

If your item arrives defective, damaged, or different from what you ordered, please contact support as soon as possible with your order number. Defective or incorrect items are eligible for return with return shipping covered by us.

We may ask for a short description or photos of the problem to help us resolve your case quickly.

8. Electronics and Warranty

All electronics come with a 1-year manufacturer warranty covering defects. If an electronic item stops working because of a manufacturing defect within one year of purchase, contact support with your order number.

The standard 30-day return window still applies to returns made for reasons other than defects. The warranty does not cover accidental damage, misuse, or unauthorized modifications.

9. Order Changes and Cancellations

Orders can be changed or cancelled within 1 hour of placing them. After that, the order has already entered processing and cannot be modified. If your order has already been delivered, please follow the return process described above.

10. Contact Us

If you have any questions about this Return Policy, please contact our support team and include your order number in your message.
